

2nd Grade Scavenger Hunt

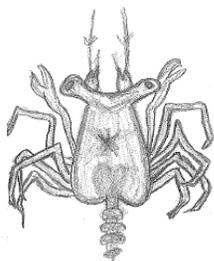

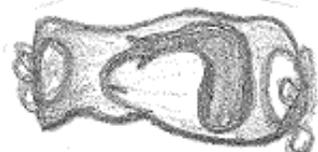

With the help from your adult chaperone, answer the following questions as you tour the aquarium!

Just like you, plants and animals can look similar or different than their parents. You will not look exactly like your parents or other people that are related to you; but you will have some similarities. Draw an arrow to match the baby animals to their parents to see how children can look similar and different than their parents. Also, fill in the blanks of the names of the parents using the word bank!

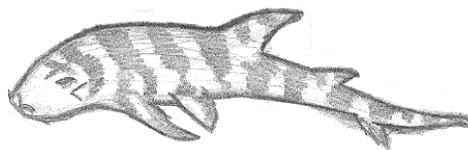

Babies

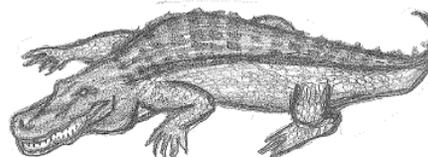

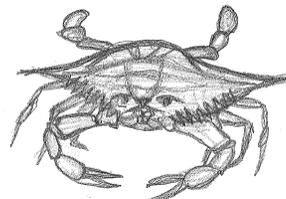

Luna

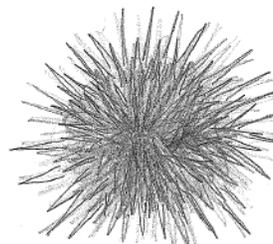

Parents

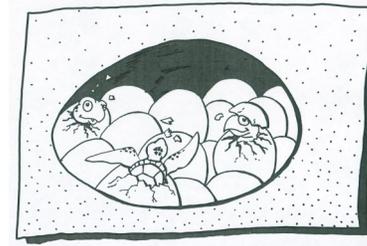

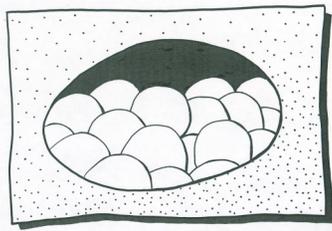

Word Bank

- Quail
- Bamboo Shark
- Alligator
- Sea Urchin
- Blue Crab

Loggerhead Sea Turtle Life Cycle!
